Forecast For Wales
Issued by Met Office Exeter
at 0400 on Tuesday 09 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A cloudy day then turning unsettled overnight and into Wednesday.

Today:
A cloudy but largely dry day for most. Outbreaks of light rain and drizzle are possible in the north and west during the morning, clearing by the afternoon. Winds will strengthen throughout the day. Maximum temperature 10 deg C (50 deg F).

Tonight:
During this evening and overnight, rain, heavy at times will spread eastwards across the country accompanied by strengthening winds and the risk of coastal gales. Minimum temperature 6 deg C (43 deg F).

Wednesday:
A wet and windy day with persistent rain, heavy at times and strong winds. Winds will continue to strengthen with the risk of severe coastal gales and inland gales overnight. Maximum temperature 12 deg C (54 deg F).

Outlook for Thursday to Saturday:
Frequent heavy blustery showers on Thursday and Friday with the risk of hail. Winds staying strong with gales likely. Occasional blustery showers on Saturday with winds easing.
